THINKING OUT OF THE SHELL

SKM EGG PRODUCTS EXPORT (INDIA) LIMITED

WHOLE EGG POWDER

SKM Whole egg powder is a dehydrated form of eggs made by spray-drying eggs. It typically consists of both egg whites and egg yolks, providing a convenient and shelf-stable alternative to fresh eggs. Whole egg powder can be reconstituted by adding water, making it useful in various applications such as baking, cooking, and food processing. It retains the nutritional content of fresh eggs, including proteins, fats and vitamins.

Content: 100% Whole Egg Powder

Pasteurized whole egg powder undergoes a heat treatment process to eliminate harmful bacteria while preserving its nutritional qualities. It's preferred in industries prioritizing food safety, like food processing and baking, for its convenience and reduced risk of contamination.

Capacity: SKM uses only fresh eggs from bio secure farms and can break 1.8 million eggs a day to produce 7500 tons of finished products in a year.

Raw Material: Fresh eggs are sourced daily from bio secure farms. Feed ingredients, additives, and compound feed for the birds undergo rigorous testing to ensure compliance with EU and Japanese regulations regarding residues of antibiotics and pesticides.

Reconstitution: 25 g of powder + 75 g of water = 100 g of liquid whole egg with a dry matter of 24.0% which is equivalent to 2 Shell eggs. Egg powders are best dissolved in lukewarm water (35-40°C).

Quality & Certifications: SKM Egg Products is certified for ISO 22000, BRC, KOSHER, and HALAL to ensure the production of high-quality egg products. Our state-of-the-art Quality Assurance laboratory is equipped with sophisticated instruments and is ISO 17025 accredited.

Applications Industries: SKM Whole egg powder is a versatile ingredient used in baking, food manufacturing, food service, snack foods, beverages, nutritional supplements, prepared foods, food storage, emergency preparedness.

It serves as a convenient substitute for fresh eggs, providing structure, moisture, protein, and other nutrients. Its long shelf life and ease of use make it valuable in a wide range of culinary and industrial settings.

SKM Variants -Whole Egg Powder:

Product Name	Code	Features
Dried Whole Egg Powder - Standard	W1205	Standard Product
Dried Whole Egg Powder – Enriched	W1228	Yolk Portion Increased
Dried Whole Egg Powder -High Gel	W1214	Modified for High Gel
Dried Whole Egg Powder with Egg White	W1260	White Portion Increased

Shelf Life and Storage Condition:

The product, when stored in its original packaging under Odor-free conditions and at ambient temperatures (between 15°C-25°C) with a maximum relative humidity of 65%, has a shelf life of 18 months. It is suitable for storage and distribution at ambient temperatures. However, extended storage at high temperatures may shorten its functional properties thereby affecting the shelf life.

Our Packing:

25kg, 20 Kg and 10 Kg Carton Boxes with a Blue HDPE Inner Liner.

Load ability:

40' ft Container: 24 MT, 20'ft Container: 12 MT.
