

SKM EGG PRODUCTS AT 25

...the journey has just begun

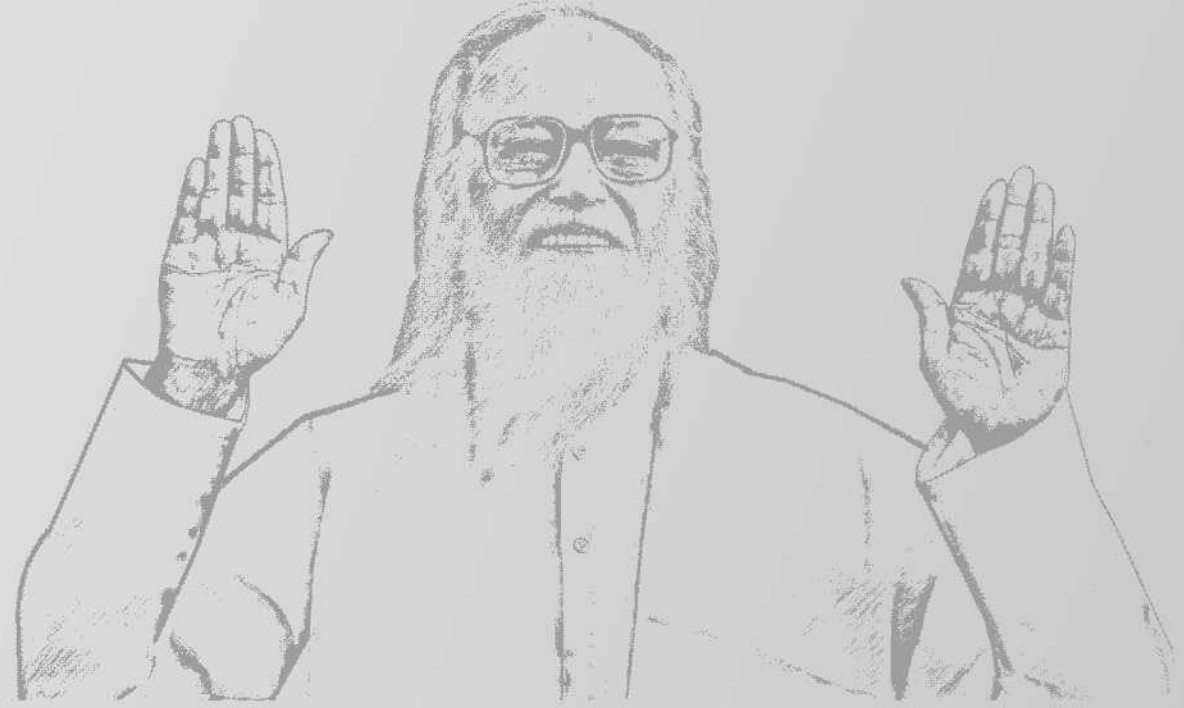

SKM EGG PRODUCTS AT 25

...the journey has just begun

“Vazhga Valamudan”

Our humble pranams to
Yogiraj Shri Vethathiri Maharishi

Egg Processing Unit, Solangapalayam, Erode

“New Perspectives.
Newer Horizons.”

Setting up of SKM Egg Products in 1995 was such a challenging one. But the progression crossed many a landmark.

From this vantage point, we envision many new avenues, at home and abroad, demanding equally skillful and more assiduous handling.

1995 - 2020

SKM EGG PRODUCTS

THINKING OUT OF THE SHELL

NEW PERSPECTIVES. NEWER HORIZONS.

Setting higher goals for the future

“Thinking out of the shell”

The tri-letter identity of SKM at the core of a five-pointed star, has become a symbol of excellence, over the years. It denotes the progressive face and vibrancy of SKM, signifying a pre-eminent commitment to quality.

The extending arms of the star allude to paradigm shifting innovation and breaking through of conventional boundaries, which SKM stands for.

The visionary who inspires SKM

“Laudable performance”

It gives me immense pleasure to see that SKM Egg Products is at its jubilant 25.

In 1995, when SKM initiated to build one of Asia's largest and most sophisticated egg processing factory, the new generation was all enthused about the enormous marketing opportunities awaiting across the globe. Time has proved them right.

The new leadership chose quality and trust as the bedrock to build the international operations on. High quality standards prevailing in countries like Japan, EU and Russia, along with highly reliable operations helped us to establish our brand in the international market.

I appreciate the contribution by each and all towards these marvellous gains and look forward very much to the efforts that are afoot to multiply the business in the coming years.

A man with dark hair and glasses, wearing a blue blazer over a white shirt, is seated in a red office chair. He is smiling and looking towards the right. His hands are resting on a desk with several papers. In the background, there is a framed picture on the wall and a decorative wooden structure with red flowers.

Resolute faith in quality and efficiency

“Heartful gratitude to all”

Silver Jubilee is a special moment in a company's life. An occasion to pause, reflect and prepare for the onward journey.

Beginning of SKM Egg Products in 1995 was a bold step for Tamil Nadu's largest egg-trading and allied business group. Starting as a hundred percent export-oriented company, SKM Egg Products, one of Asia's largest and most sophisticated egg processing plant, was on-stream in 1997.

Upholding quality and traceability of products as key attributes, we embarked on a global marketing drive, on the strength of our elaborate groundwork. We made steady headway in a hard-headed market with right communication and trade strategy. As the numbers prove, this propelled us to a high volumes of export business. We have established SKM as a reliable Indian brand in 28 countries.

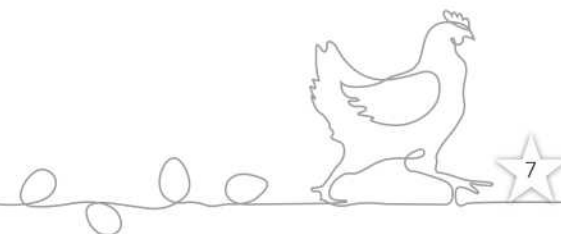

The way forward will be even more exciting as well as demanding with new avenues opening and untried scenarios emerging. Given the current pace, we expect the momentum to take us to a volume four-times greater the current business, in ten years.

Our word of gratitude is due to all for making this course possible: the shareholders, bankers, directors, employees, customers and business associates across the globe.

On this occasion, I greet them all thankfully and seek their continuous support in our onward journey.

SKM. Shree Shivkumar

Managing Director,
SKM EGG Products Exports (India) Limited
President, Indian Egg Processors Association

Together we work. Together we triumph.

“ Moments for **thanksgiving** ”

When the humongous task of promoting one of Asia's largest and most advanced egg processing plants fell upon my shoulders, my wife, **Smt.Kumutaavalli Shivkumar**, stood with me with unflinching moral and intellectual support. She even took to herself, the responsibility of running some group verticals, allowing me more focused attention on International marketing.

Along with her, everyone with me from the floor workers to the top officers deserves kudos for the contributions to make this moment of glory a reality. They all belong to the large, extended, family called SKM Shree Group.

SKM. Shree Shivkumar

Managing Director,
SKM EGG Products Exports (India) Limited

Inheriting values. Exploring new possibilities

SKM. Shree Shivkumar with father, SKM. Maeilanandhan, Executive Chairman

“Success of Perseverance”

The spectacular strides of SKM Group started from the year 1965, when a 20-year old youth, SKM Maeilanandhan, shifted from agricultural tradition to trade by opening a general store in Modakurichi, near Erode.

This turned to be an auspicious beginning of a success saga. In two decades we rose to the top of egg marketing business in Tamil Nadu, besides gaining eminence in layer broiler and cattle feed production.

In 1995, the Egg Products factory was the ambitious initiative of SKM to enable significant foray into global market.

At the helm of SKM Egg Products as the Managing Director, SKM Shree Shivkumar streamlined the works and optimized the output, then setting out on a course to explore the international markets.

Armed with SKM's world-class production facility and a never-compromise attitude regarding product quality, Shivkumar expanded the company footprint to 28 countries, from the UK in the West to Japan in the East.

From the beginning till date, purity of purpose and merit of merchandise is at the core of SKM's business pursuits. Product excellence is its success mantra.

Shri Pranab Kumar Mukherjee, former President of India, conferring the prestigious Padma Shri Award to Shri SKM Maeilanandhan in 2013, in recognition of his committed and selfless service to the society

“ Giving back to the Society ”

The Corporate Social Responsibility (CSR) activities of SKM come from a sense of commitment by the management to the community and sentiments of responsibility to social stakeholders at large. Conscious of the kind of impact the company has, and can have, on the society, SKM's philanthropic drives go beyond the regular and reach out to different strata of the society.

The Corporate Social Responsibility (CSR) activities are designed to strengthen the bond between the employees and the surrounding communities.

Sri SKM. Maeilanandhan founded SKM Health and Mind Welfare Charity Trust in 1988 and started the Sevai Maiyam in Modakkurichi to adopt 228 underprivileged families. Besides free food and health care, the Maiyam provides with basic

amenities like individual toilets with proper drainage facilities to their homes. Children of the 228 families are also given support in education.

The dalit women of the villages are given good medical care right from the beginning of their pregnancy up to delivery. If necessary, they are taken to Erode general hospital for further treatment during maternity period. In the adopted villages the streets are kept clean and green with planted trees on both sides.

Upholding great importance to green values SKM has made concerted efforts to reduce its carbon footprint. The company has initiated generation of alternate energy through solar panels and windmills for captive consumption.

SKM. Shree Shivkumar, Managing Director,
with foreign dignitaries at factory inauguration.

“ India's Largest Egg Products Exporter ”

SKM set foot on a course of excellence by starting SKM Egg Products, a 100% export-oriented processing plant in 1995 and commenced the commercial production in July 1997.

SKM produces One Million eggs per day and has the capacity to process Three Million eggs per day in all forms - powder, liquid, frozen and value-added consumer products.

A brainstorming session of chief officers, chaired by the MD

“Team SKM - Carrying the vision forward”

While exploring new markets and customers internationally, we also envision a stronger presence in the domestic market, to raise awareness about the nutritional value of eggs as a source of protein and as a solution to India's nutritional gap.

Every stakeholder is a gainer

“ Enhancing the
value of **stakeholders** ”

It is a great pride to see our company grown to celebrate the 25th year Silver jubilee, embrace a good value system, seek high aspirations, and achieve what we thought was impossible.

Our management always strives to build long-term business partnerships and create value for shareholders, leading to overall organizational growth. A positive mindset, domain knowledge, and passion for results have helped us in the achievement of this success in the Egg Processing industry.

Every employee of our company is deeply passionate about building a sustainable organization, developing structure, systems and culture and working towards all stakeholders' satisfaction.

K.S.V. Pathy
Chief Financial Officer

An example the industry tries to emulate

“**Success** is all about
taking **responsibility**”

My journey with SKM Egg products export (India) Limited began as Manager - Engineering after serving 15 years in our sister company SKM Animal Feeds and Foods Pvt Ltd.

We achieved a major breakthrough in enhancing the capacity by 60% through lean management without additional investment on CAPEX. We have also implemented 5S and received Platinum Award and subsequently reached sustenance level.

In the year 2000 we went in for backward integration in building a poultry farm with latest technology including conveyor system of egg collection. The productivity in these farms is taken as a ideal example by many poultry giants even today as a reference.

We have successfully completed many projects including windmill, feed plant, and powder plant expansion.

It is a great pride to see our company grow up to celebrate 25th year Silver jubilee and I feel so excited about it.

I am given new responsibilities and with a sense of pride, I am committed to the goals of the organisation. We move ahead with new goals and new vision for the growth of the domestic market.

L. Suresh

Chief Operations Officer, Domestic

The credo is, quality first.

“ Building a
Numero Uno organization ”

I have had a great experience since inception in setting up a world class lab of International standards with the accreditation of ISO 17025.

Implementation of residue monitoring program and commissioning of sophisticated instruments and validating the methods are further feathers in our cap. There was ample scope to explore the FMCG sector for the liquid products in India and abroad. We were the first to export liquid egg products to Europe from India.

We're committed to building a team through Leadership management with pride in helping build a “numero uno” Egg processor in India. Quality is our obsession.

V.V. Krishnan
Chief Technical Officer

Rearing for the next

“ Looking **Ahead** with **Pride** ”

It's the twenty-fifth anniversary and we're really proud of it. The Company always had a long term vision about this moment.

There have been plenty of hurray moments in these years. Two major achievements are taking the egg breaking capacity per day from 1.8 million to 3.0 million and our egg liquid production becoming the fuel for a multi fold business zoom.

Taking quality control measures further, we included setting up of our own farms for backward integration, thereby, doubly ensuring superior quality as well as quantity of eggs.

As a result of our ideal people-management policy, we have the lowest employee attrition rate among industry peers.

At SKM Egg Products, we all are thrilled to be part of the celebrations . We look forward to the GOLDEN JUBILEE as well.

R. Murali
Chief Operating Officer,
Operations & Process

Ideal Animal Health. More Eggs.

“ One more feather in the cap ”

I joined SKM Egg Products 15 years ago and it feels just like yesterday!

To arrive at the Silver Jubilee year we have come a long way and with best contributions from the Supply Chain wing.

We source around 1.8 million eggs every day. Over a period of time our dependency for raw materials has reduced from 100% to 40%. We have the vision to make us 100% self-reliant in about 5 years.

We set up our own poultry farm with 0.6 million birds as per the OIE (World Organization for Animal Health) norms. The first commercial layer poultry farm compartmentalised in the year 2008, with excellent productivity we are the No.1 performing farm in terms of yield per hen in India. Our eggs meet the international quality standards.

We add one more feather in the cap, becoming the No. 1 in productivity in Tamil Nadu in terms of daily production: about 1.2 million eggs from 1.5 million birds.

This anniversary leaves a vision that in a decade we will be the No.1 producer of eggs with maximum number of birds in Tamil Nadu.

Dr. K. Sivaraju.
Chief Supply Chain Officer

CARRYING THE
VISION
FORWARD

A preferred choice across the world

“ The world favourites from SKM ”

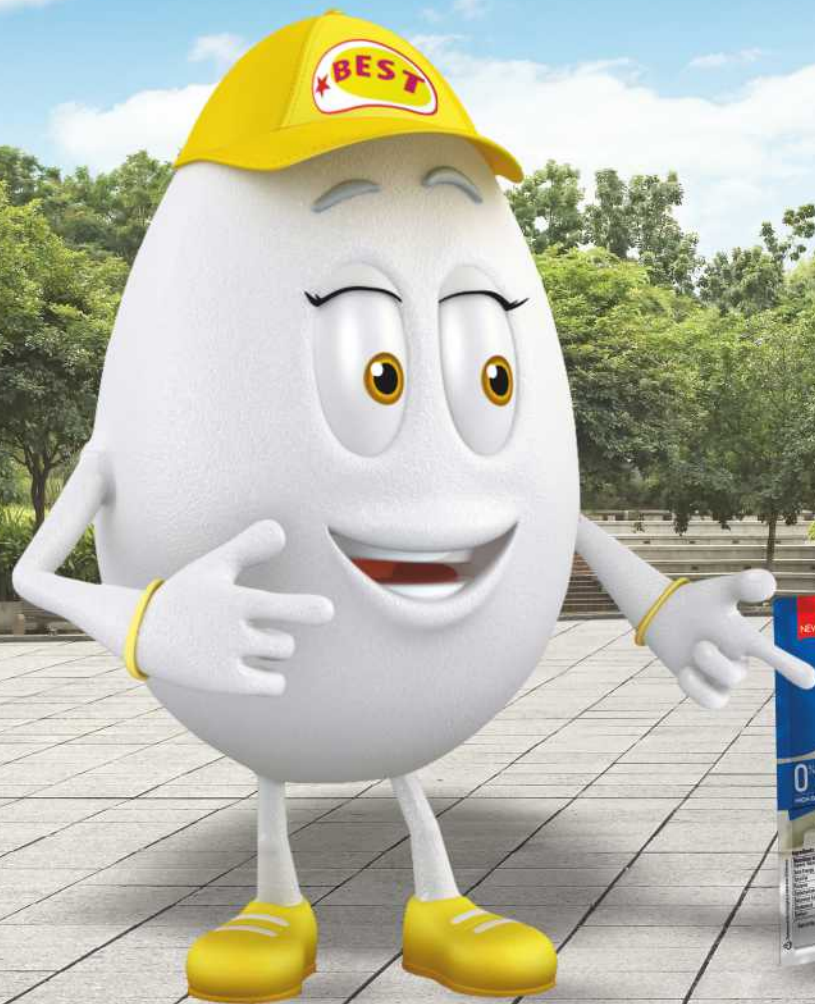

SKM is Asia's largest integrated manufacturer and supplier of egg products in international market.

SKM manufactures a wide range of products to meet the needs of global and domestic markets. They are functionally superior, blend well with other ingredients and widely used in various food products.

Catering to the requirements of B2B and B2C segments, our products have earned the confidence of valued customers across the world.

'Best' for the home

“ The **“BEST”** for Indian market ! ”

SKM, as a major egg-trader, came up from the days of warm business bonds with egg farmers in and around Erode. Even as a globally dominant seller of egg products of today, SKM continues to have robust business relations with the egg farmers in rural Tamil Nadu.

In order to enable Indian consumers to taste the world's best, SKM launched its own branded eggs under the name "BEST". True to their name, SKM "BEST" eggs come from birds fed on veg feeds and are assured to be completely free of pesticide and antibiotic residues. They are fresh, clean and free of any bad odour.

Encouraged by its success SKM launched innovative egg products such as egg albumen cubes, egg liquid variants in retail and wholesale packs and egg protein health drinks. There is growing demand for these products in the domestic market and SKM has plans to expand its presence pan India in the coming years.

SKM EGG Products is a finest example of how a strong value system and drive for excellence can keep you ahead in a competitive environment. "Thinking out of the shell" was a mantra we adopted consciously to keep pushing ourselves to innovate. Today, we are one of Asia's biggest egg processing plants. The future looks both exciting and promising to us."

SKM. Shree Shivkumar
Managing Director

“ Factory Infrastructure ”

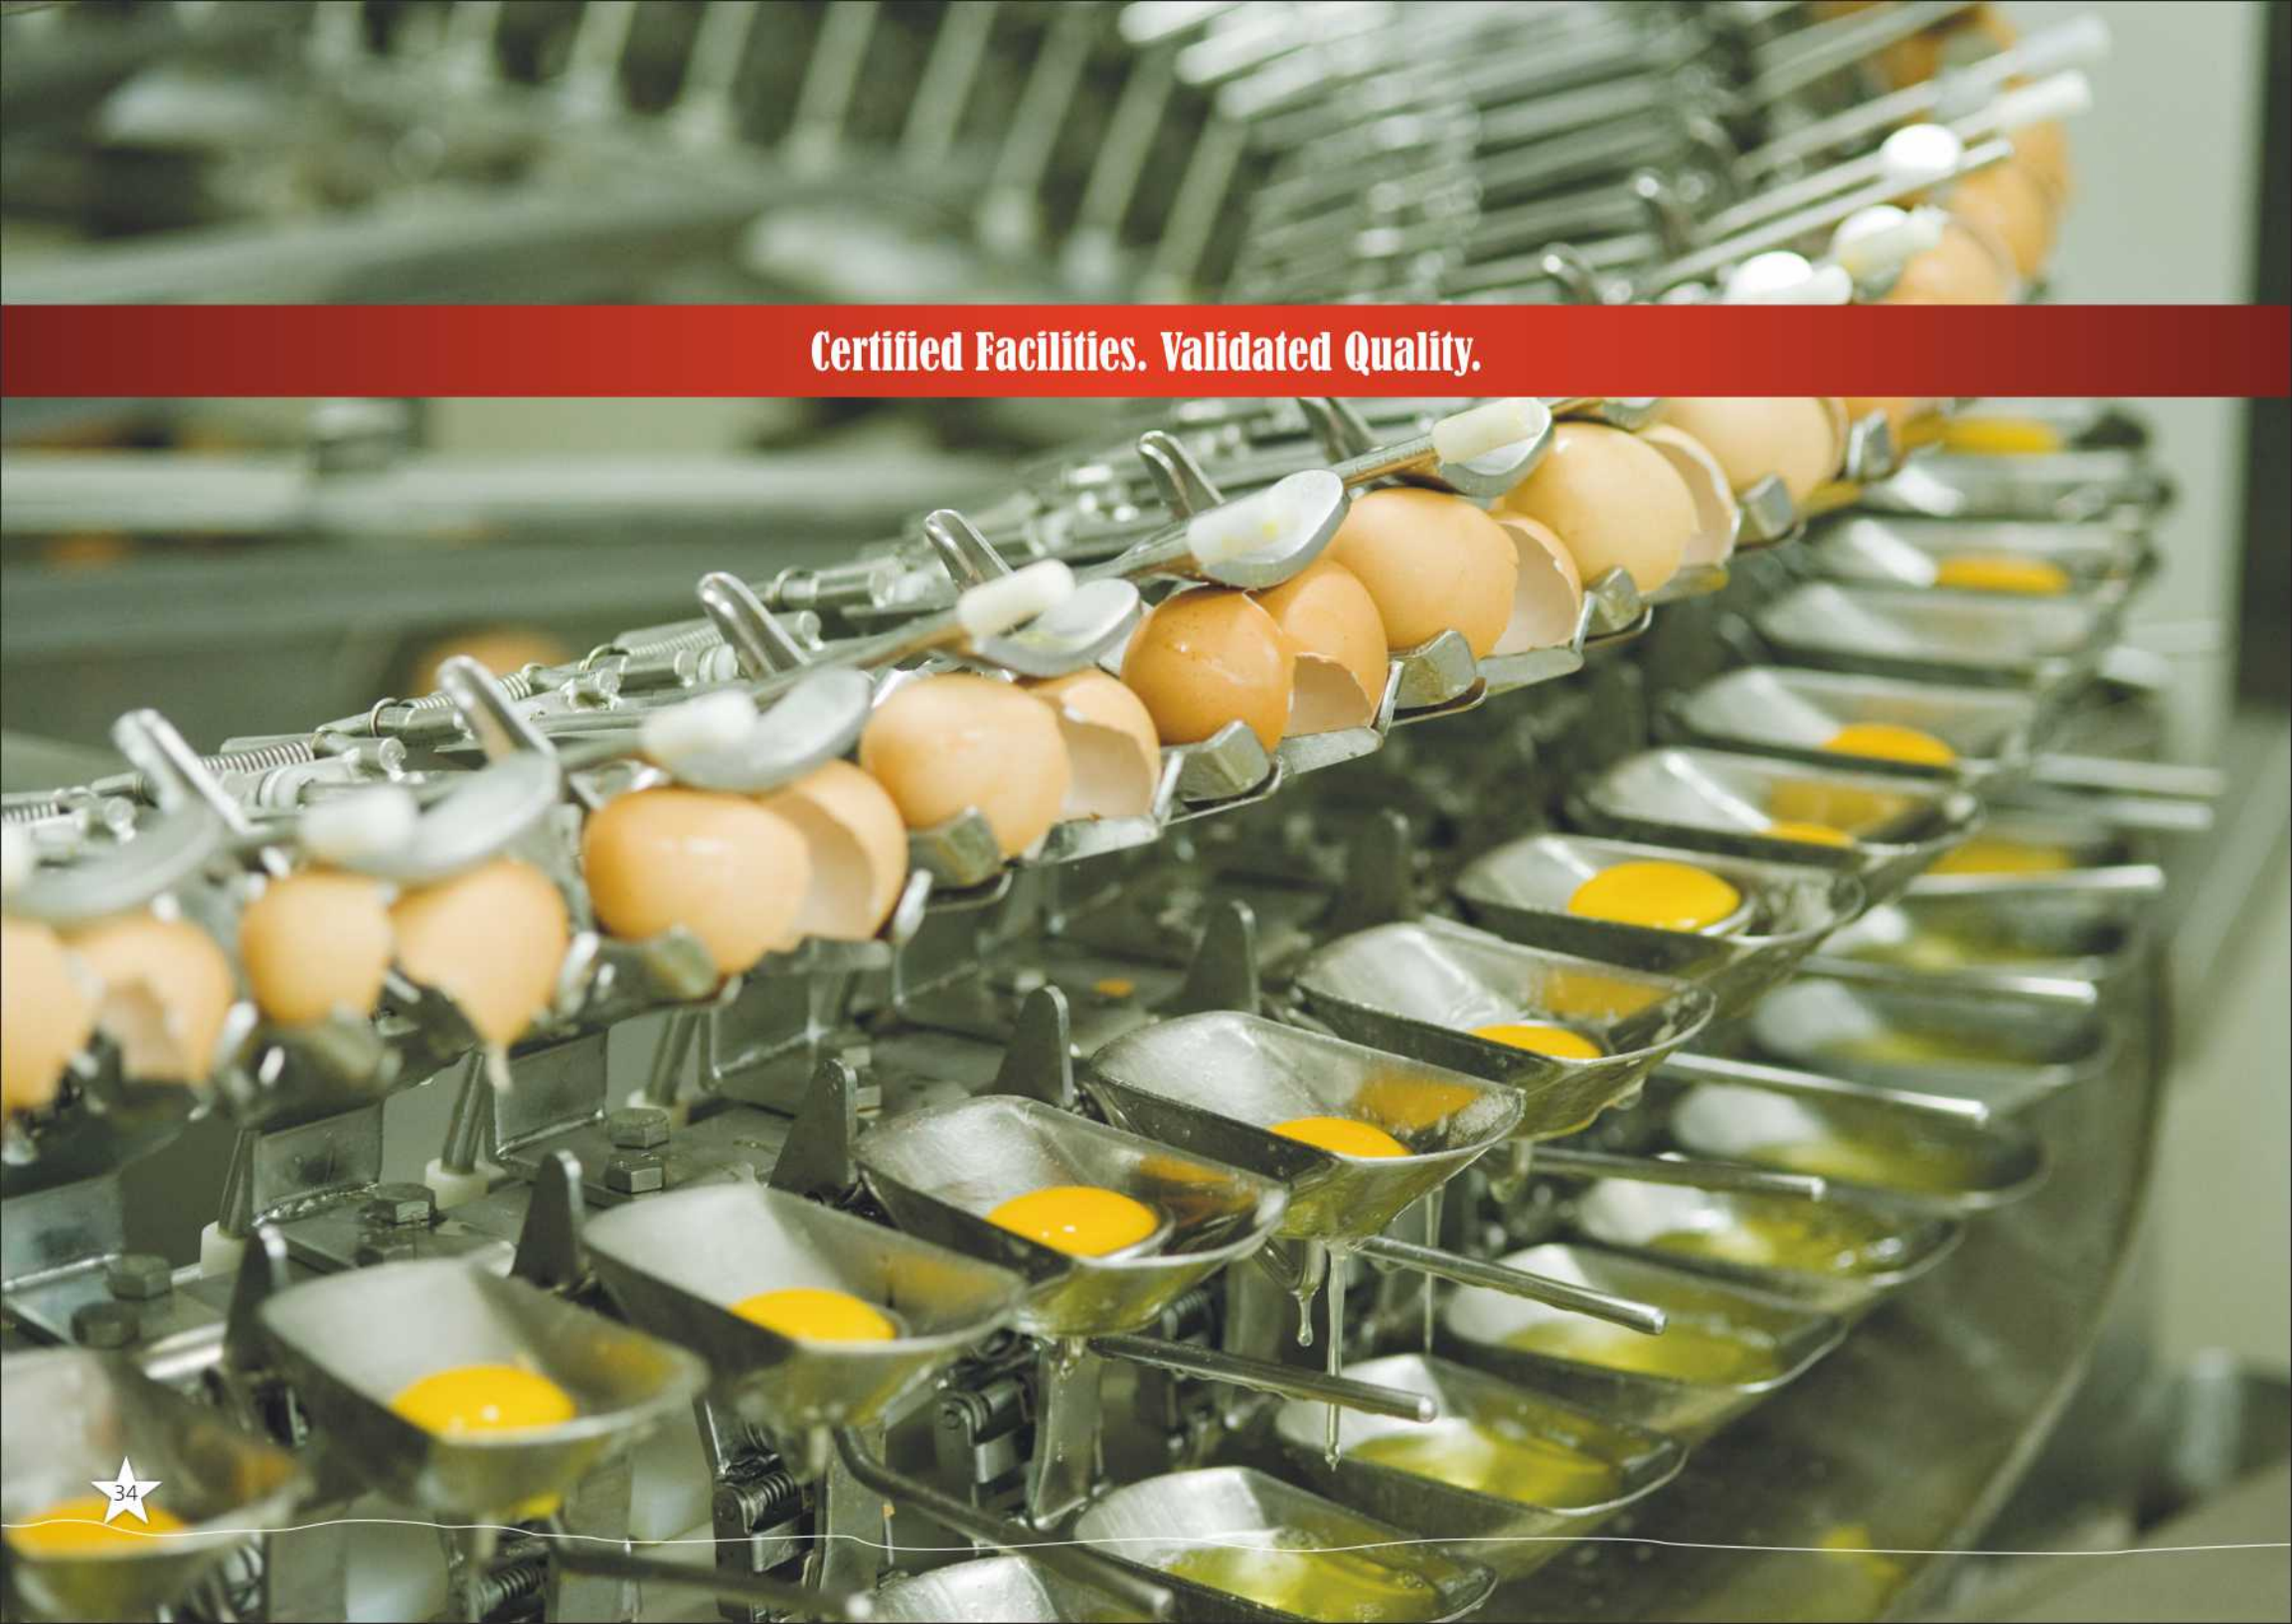

SKM egg products are certified for BRC, ISO 22000, HALAL and Kosher. The state-of-the-art quality assurance laboratory equipped with sophisticated instruments is ISO 17025 accredited. SKM has the capability to formulate and develop various types of egg-based mixes for bakeries and mayonnaise applications.

The quality and safety of the raw material is ensured with the backward integration of own layer farm and feed mill. The poultry farm is

ISO 22000 certified and supported by feed mill with attached laboratory. Biosecurity is maintained and our poultry farms are registered under establishment as per the norm of European Union.

The production facility is located in a sprawling area of 35 acres, inclusive of 9 acre factory which is fully automated and air conditioned. It is supported by Environment friendly operation exploring wind-power.

A detailed view of an industrial egg processing line. In the foreground, a series of orange eggs are being cracked by a mechanical device. The eggshells are broken, and the bright yellow yolks are falling into small, rectangular metal trays. The trays are arranged in a row, and the yolks are visible in each. The background shows more of the machinery, including conveyor belts and other processing units, all in a clean, industrial setting.

Certified Facilities. Validated Quality.

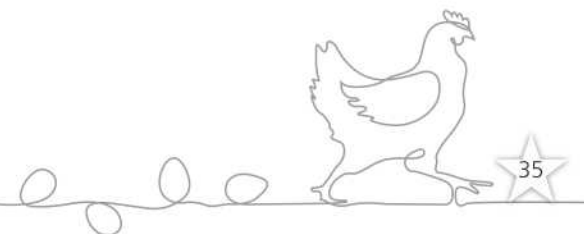

“ The Quality Quotient ”

Apart from maintaining a bio-secure, sterile atmosphere for egg breaking and conversion, the egg products plant has facilities to ensure absolute quality in functional and biological aspects. It also has the facility to check for the residual impacts, if any, on eggs from pesticides.

Traceability of eggs back to layer farms is of utmost importance among the safety standards in advanced markets, especially, Europe and Japan.

Foolproof in-house quality control system, along with the technology to trace (TRACKER system) outsourced eggs back to the farm conditions, makes SKM egg products widely acceptable in the international market.

Also pasteurization (and spray drying of egg content) during powder production ensures complete protection against bio-incursion and quality degradation.

Empowering the workforce

“Employees - SKM's most valuable asset”

SKM takes utmost care of them and for many of them it's the silver jubilee of their career with SKM! We're proud of our motivated and committed employees who play a key role in the growth of this organization.

At SKM employees at all levels periodically undergo external and internal training programs to keep themselves updated with the latest trends and

developments. We have a system to measure the effectiveness of the training.

Exemplifying the Japanese principle of Kaizen, SKM continues its development as one of the most efficient egg processors by implementing a Performance Management System to motivate employees and to foster the attitude of continuous improvement within the organisation.

“ Business beyond Borders ”

Sensing the business potential across the globe, SKM spread its wings and established its presence in Japan, Europe and Russia.

Right now, SKM sells its products in Japan, Europe, Russia, Central Asia and Southeast Asian markets. As part of the growth strategy, the company is planning to expand its global footprint and at the same time, roll out its products PAN India.

It was a challenging task to enter into the most demanding and stringent Japan, Russia and European markets. With quality and competitiveness going hand in hand, SKM overcame the challenges and successfully made its presence felt.

SKM keeps investing and improving on all aspects of business, year after year. Today, meeting the most stringent of quality standards in the international market is no challenge for SKM.

“Congratulations on your company's 25th anniversary. I was totally impressed by SKM's beautiful white color building and the factory with latest facilities.

Since then, for 25 years, I have been working hard close with SKM to pioneer Japanese market. We have built trust among major customers and as a result our SKM business have grown remarkably.

I have to say the biggest factor of our business growth and success is SKM's Mr. Shree Shivkumar's strong leadership.

His global perspective and generous personality with great service are always happily accepted by Japanese customers. I have learned so much from him. The fact that SKM business has continued for 25 years shows everything.

SKM products began to be accepted and highly evaluated in Japan. And now, SKM has become the biggest name in the market.

Now we have to consider how we can win for the next 25 years.

With the growth of domestic demand and improvement of international competitiveness, next 25 years can be very exciting and progressive years for SKM.

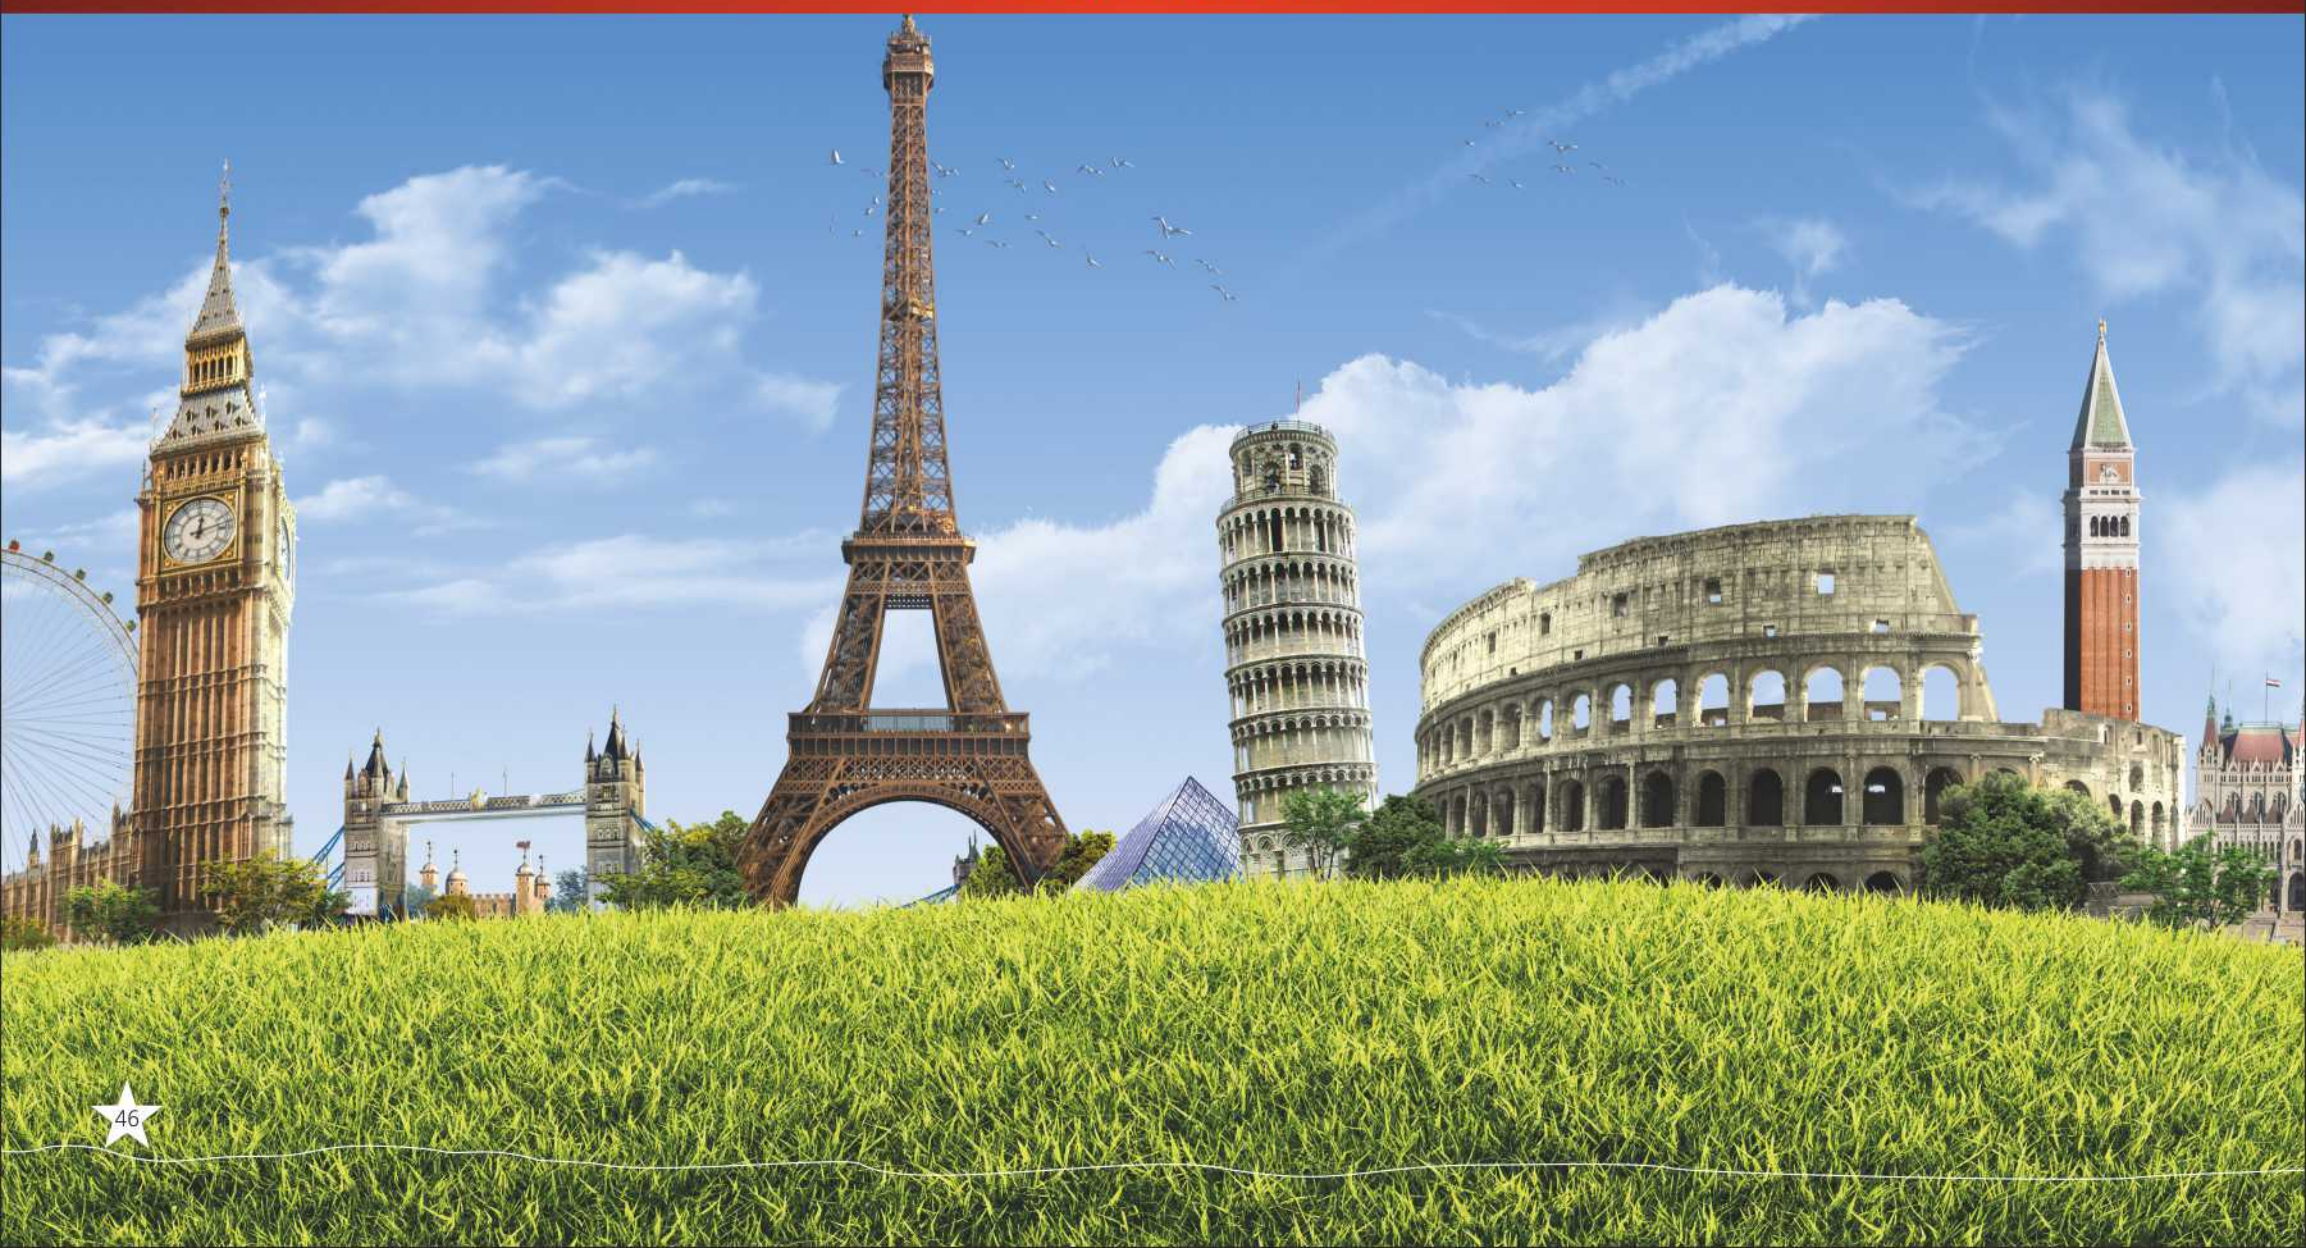

I wish SKM another 25 prosperous years. And as SKM Japan, we will also work hard for SKM's growth.”
